Subject: "Call of Duty" an urge to young defence aspirants from Founder Director Centurion Education Pvt. Ltd.

Dear Young Defence Aspirants,

Greetings from Centurion Defence Academy, a Unit of Centurion Education Pvt. Ltd. I understand your various issues pertaining to respective exams amid Covid19. Let me remind you all that preparing for defence entrance exams, where higher risks/challenges may be associated in your lives at the workplace after your passing out. Imagine the life of soldiers in present scenario, how are they facing adverse scenarios too far from their family meeting with serious contingencies. Can they ask to withdraw? Imagine the life of medical officers, doctors and other staff who are directly dealing with medical emergencies of covid positive patients. What will be the scenario if they express reluctantly and say that their lives are also under high risk. Secondly, cancelling exams for the post of officer cadre in Indian Armed Forces will leave another risk of scarcity of trained manpower in expected crisis on the border in near future. If military training centers cease, Please do reply me, Who will ensure safety of the nation in current network centric scenario where biological Warfare can't be ruled out. I am little disappointed with this low indicated 'Morale' of some defence aspirants just before appearing in their respective written exams. I urge all political parties not to make it a matter of political debate authenticating integrity of its citizens, sovereignty of the nation and also career of the millions of students. Ladies & Gentlemen, This pandemic can't abandon/affect the preparedness stage of Indian Armed Forces nor honorable apex court will put sovereignty of the nation at least priority. As a defence aspirant, you are directly representing your nation in this crisis. Chief of Defence Staff General Bipin Rawat also made the nation alert on this issue with his latest statement, "The military option to deal with transgressions will be exercised only if talks at the military and the diplomatic level fail". He made the nation alert in future days against sudden threat or expected enemy intrusion.

Wake up, it is the nation's call of duty. Remember, You are defence aspirant yet you will surely learn 3 most meaningful words after your military training to live by **SERVICE BEFORE SELF**.

Be Motivated, Reform Your Mindset and Be Leaders Of Tomorrow.

Jai Hind.

Regards,
Shishir Dixit
